

Incident Report

It is important to have written incident reports on file regarding injuries, property damage or other incidents that may result in a claim against your sports organization. Many such claims allege negligence, and written reports prepared immediately after an incident occurs are invaluable in defending these types of claims. In the event of a serious injury, it is important to ask for written statements from witnesses and individuals actually involved in the incident. One copy of the report should be kept on file with our club for at least three years since many lawsuits are filed long after the injury occurs. Send all documentation to a club officer for approval and handling. Refer to contact information on page 2. Attach any additional information that might be helpful in defense of a future claim, such as a police report, doctor's statement, pre-event inspection report, routine facility maintenance report, photos taken at the time of the incident and written statements of witnesses.

This report is to be completed by:

An official member of the organization for incidents occurring during covered activities or events. This may be a ride leader, a bike tour leader, an officer of Sacramento Bike Hikers, etc.
